### I order with template (standardised wellness footbed):

#### Shape

- narrow  
 wide

#### X-Sandal

Strap

- narrow 25 mm  
 wide 40 mm

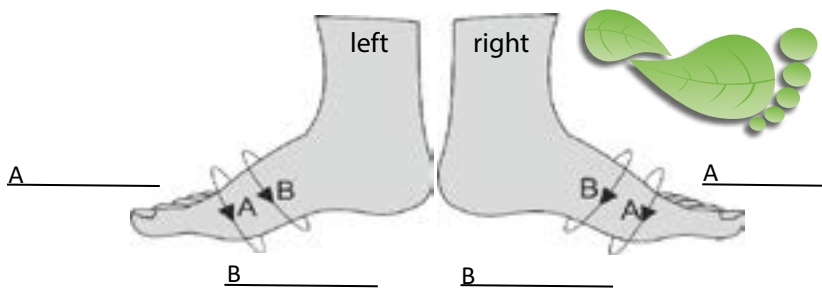

#### Y-Sandal

Strap

- narrow 17 mm  
 wide 25 mm

OR

### I order according to the attached foam imprint respectively according to our digital foot-scan with the following specifications (individual wellness footbed with moderately adaptable elements for a healthy/normal foot):

Please state ball circumference (A) and waist measure (B) in mm!

#### OPTIONAL:

<b>Foot type</b>	left	right	<b>Pad</b>	
Normalfoot	<input type="checkbox"/>	<input type="checkbox"/>	light	<input type="checkbox"/>
Plano valgus	<input type="checkbox"/>	<input type="checkbox"/>	medium	<input type="checkbox"/>
Sickle clubfoot	<input type="checkbox"/>	<input type="checkbox"/>	strong	<input type="checkbox"/>
Hollow foot	<input type="checkbox"/>	<input type="checkbox"/>		
<b>Correction strength</b>	left	right		
sight	<input type="checkbox"/>	<input type="checkbox"/>		
medium	<input type="checkbox"/>	<input type="checkbox"/>		
strong	<input type="checkbox"/>	<input type="checkbox"/>		

\*without any selection you get:  
 „normalfoot“ with medium correction strength

#### Please note:

##### Step-in foam imprint

Take measurement without stockings, standing, in weight-wearing position.

##### Mark of the bar

Mark with a pencil between 1st and 2nd toe at the beginning of the instep.

### I mill by myself:

#### Which milling machine and which milling outline do you use?

- Gebiom / Go-tec / Rectangle = R126, R134, R150, R131 CNC (single pieces)  
 Gebiom / Go-tec / Rectangle = R07, Size 5 (350 x 290 mm)  
 Paromed / Iron 3300 (Typ 05)

I order a kit

I order an finished/assembled model

(if the measurements of my customer do not meet Schein's system, I authorize the delivery of a kit.)
